BLO₂, EFFICIENT & GREENER FOR ALL YOUR SMELLY PLACES

Created and patented in Europe by Hyprom, BLO₂ is the only efficient and greener alternative to aerosol. This revolutionary way to fight against bad smells, wherever you need to, will completely BLO₂ your mind! It is born from 10 years of R&D and real testing conditions to our direct customers in Switzerland. Today, there is no such tested & improved technology.

DETAILS OF A BREAKTHROUGH TECHNOLOGY

- › 1 unit = up to 120 m³
- › Imagined and co-created by our direct service company
- › The fragrance is diffused in the air thanks to the piezo vibrating technology
- › **+** Easy: use / program / service
- › **Personalized programming** = use it only when you need it
- › **NO** propellant gas
- › **+** **Efficiency** vs aerosols
- › **Light mist** = fragrance stays airborne longer than aerosol sprays
- › **ClipNgo** = only the used or defective parts can be changed
- › **Low battery** consumption
- › Built from **more than 30%* recycled materials**

- › 1 refill = up to 4 months
- › **Premium and fresh fragrances** = covers unpleasant smells with a nice & contemporary touch
- › **Low VOC**
- › **Light packaging** = easy to dispose of. Takes up very little space in the waste bin

Resistant and durable ABS plastic construction
